Hosted by the American Association for Cancer Research and Moffitt Cancer Center with support from the Association of American Cancer Institutes and in cooperation with the Honorable Gus Bilirakis and the Honorable Kathy Castor

Monday, March 7, 2016
10:00 - 11:30 a.m.
Moffitt Cancer Center,
Stabile Research Building,
Couch Auditorium
Tampa, Florida

The American Association for Cancer Research (AACR) and Moffitt Cancer Center are co-hosting this event to rally congressional support for and raise public awareness of the groundbreaking cancer research taking place at Moffitt Cancer Center and around the nation thanks to federal funding for the National Institutes of Health (NIH) and the National Cancer Institute (NCI).

Topics will include the new national cancer initiative to be led by Vice President Biden, the president’s Precision Medicine Initiative, current priorities for the NCI, congressional efforts such as the 21st Century Cures initiative, and a patient’s perspective on the progress of cancer research and treatment.
