TUMOR IMMUNOLOGY AND IMMUNOTHERAPY: A New Chapter

Presented in conjunction with the Cancer Immunology Working Group of the AACR

An AACR Special Conference on

FRONTIERS IN BASIC CANCER RESEARCH

October 23-26, 2015
Pennsylvania Convention Center • Philadelphia, PA

Submit an Abstract/Apply for an Award By: Friday, August 14, 2015
Register and Save By: Friday, September 11, 2015
TUMOR IMMUNOLOGY AND IMMUNOTHERAPY: A New Chapter
Presented in conjunction with the Cancer Immunology Working Group of the AACR

An AACR Special Conference on

CONFERENCE CHAIRPERSON
M. Celeste Simon
Abramson Family Cancer Research Institute,
University of Pennsylvania, Philadelphia, PA

CONFERENCE CO-CHAIRPERSONS
James P. Allison
The University of Texas MD Anderson Cancer Center, Houston, TX

John E. Dick
University of Toronto, Toronto, ON, Canada

Nathanael S. Gray
Dana-Farber Cancer Institute, Boston, MA

Victor E. Velculescu
Johns Hopkins Kimmel Comprehensive Cancer Center, Baltimore, MD

Fourth AACR International Conference on
FRONTIERS IN BASIC CANCER RESEARCH
October 23-26, 2015
Pennsylvania Convention Center • Philadelphia, PA
Editor-in-Chief of the AACR’s journal, *Molecular Cancer Research*, Dr. Karen E. Knudsen, described the “Middlegame Theory, Cancer Style,” comparing future strategies of cancer research to that of the middlegame in chess. That is, “the time when piece placement has developed, loose understanding of potential paths forward has emerged, action and reaction requires lateral thinking to gain advantage, anticipating next moves becomes essential, and the skirmishes begin. Successful middlegame play, albeit challenging, is the gateway to a successful endgame.” In the parallel to cancer research, thanks to advances in basic, translational, and clinical research, many key “pieces” have been placed (i.e., identification of oncogenes, tumor suppressor genes, causative mutations, cancer signaling pathways unraveled, cancer vulnerabilities exposed), and all of these pieces are in place to consider strategy to the ultimate endgame. We are in the middlegame of cancer research, and Dr. Knudsen emphasizes the importance of innovative basic cancer research to reach the endgame.

This biennial broad-based meeting will provide a forum for the presentation of the state of cancer research in the most studied subspecialties in basic cancer research and opportunities for collaboration that is essential in identifying the needs in the basic cancer research community that will contribute to the endgame of cancer prevention and treatment in the clinic.

This has been a very popular meeting with students (graduate or medical) and fellows (clinical or postdoctoral) as it and covers the hottest topics in basic science in a small setting; in fact, since the inaugural meeting in 2009, this cohort represents 50% of attendees.

Please join us in the AACR’s hometown of Philadelphia, PA, for this exciting program featuring the most current topics in basic cancer research presented by the field’s leading experts.

Mentoring roundtables with invited speakers will occur during breakfast and lunch each afternoon. Please see the General Information section for more details on signing up to participate.

**Cover Image:** This illustration depicts apoptosis of matrix-deprived inner cells in ovarian cancer spheroids. Courtesy of Rachel Davidowitz, PhD, scientific illustrator and former lab member of Dr. Joan S. Brugge, Harvard Medical School.
Thursday, October 22, 2015

Registration will be available for a short time in the Philadelphia Marriott for those arriving the evening before.

Friday, October 23, 2015

8:00 a.m.-9:00 a.m.  Continental Breakfast

9:00 a.m.-10:30 a.m.  Opening Keynote Session
Immune checkpoint blockade in cancer therapy: New insights, opportunities, and prospects for a cure
James P. Allison, The University of Texas MD Anderson Cancer Center, Houston, TX

10:30 a.m.-11:00 a.m.  Coffee Break

11:00 a.m.-1:00 p.m.  Plenary Session 1: Immunology and Immunotherapy
Personalizing cancer immunotherapy
Robert D. Schreiber, Washington University School of Medicine, St. Louis, MO

From the clinic to the lab: Investigating immune responses to immune checkpoint therapies
Padmanee Sharma, The University of Texas MD Anderson Cancer Center, Houston, TX

Multifaceted functions of the PD-1 pathway
Arlene H. Sharpe, Harvard Medical School, Boston, MA

Molecular mechanisms of the T cell-inflamed tumor microenvironment
Thomas F. Gajewski, University of Chicago, Chicago, IL

2:30 p.m.-4:30 p.m.  Plenary Session 2: Metabolism
Angiogenesis revisited: Role and (therapeutic) implications of endothelial metabolism
Peter Carmeliet, Catholic University of Leuven, Leuven, Belgium

Metabolic heterogeneity in cancer cells and tumors
Ralph J. DeBerardinis, UT Southwestern Medical Center, Dallas, TX

Hypoxia, metabolism, and tumor progression
M. Celeste Simon, Abramson Family Cancer Research Institute, Philadelphia, PA

(2) Short talks from Proffered Abstracts

4:45 p.m.-5:30 p.m.  Special Lecture: Converging Concepts and Emerging Research: Immunology, Tumor Microenvironment, and Inflammation
Inflammation and cancer: Immune cells as targets for anticancer therapy
Lisa Coussens, OHSU Knight Cancer Institute, Portland, OR

6:00 p.m.-8:00 p.m.  Career Mentoring Session
Sponsored by Women in Cancer Research (WICR)
For additional information, contact wicr@aacr.org.

Saturday, October 24, 2015

7:00 a.m.-8:00 a.m.  Continental Breakfast

8:00 a.m.-10:00 a.m.  Plenary Session 3: Cancer Stem Cells and Tumor Dormancy
The role of stem cells in the origin of relapse in acute leukemia
John E. Dick, University of Toronto, Toronto, ON, Canada

Tumor dormancy and recurrence
Lewis A. Chodosh, University of Pennsylvania, Philadelphia, PA

*For program updates, please visit www.AACR.org/MeetingCalendar and follow the link for Frontiers in Basic Cancer Research.
Epithelial cancer stemness and drug resistance induced by EGFR inhibition or a range of cellular stresses
David A. Cheresh, UCSD Moores Cancer Center, San Diego, CA

Clonal dynamics of normal and malignant human mammary cell growth in xenografts
Connie J. Eaves, BC Cancer Agency, Vancouver, BC, Canada

10:00 a.m.-10:30 a.m.  Coffee Break

10:30 a.m.-11:15 a.m.  Special Lecture: Converging Concepts and Emerging Research: Cell of Origin, Stem Cells, and Genetics
Targeting ubiquitin ligase activity for the treatment of cancer
Benjamin Ebert, Brigham and Women’s Hospital, Boston, MA

11:15 a.m.-1:15 p.m.  Plenary Session 4: Subclonal Heterogeneity in Genetics and Genomics
Cancer genomics: From data to science to medicine
Andy Futreal, The University of Texas MD Anderson Cancer Center, Houston, TX
Clonal evolution in breast cancer patients and patient-derived xenografts
Samuel Aparicio, BC Cancer Research Center, Vancouver, BC, Canada
Deciphering cancer genome evolution in heterogenous tumors
Nicolas McGranahan, The Francis Crick Institute, London, United Kingdom
(2) Short talks from Proffered Abstracts

1:15 p.m.-2:45 p.m.  Mentoring Lunches for Early-Career Investigators (advance sign up required)
Lunch on Own for All Other Attendees

2:45 p.m.-4:45 p.m.  Plenary Session 5: Epigenetics
Epigenetic therapy – can it sensitize to immune checkpoint therapy?
Stephen B. Baylin, Johns Hopkins University School of Medicine, Baltimore, MD
Cancer epigenetics: From knowledge to application
Manel Esteller, Institut d’Investigació Biomèdica de Bellvitge (IDIBELL), Barcelona, Spain
Chromatin looping factors and cancer
Mathieu Lupien, University Health Network Ontario Cancer Institute, Toronto, ON, Canada
(2) Short talks from Proffered Abstracts

4:45 p.m.-7:30 p.m.  Poster Session A and Reception

Sunday, October 25, 2015

7:00 a.m.-8:00 a.m.  Continental Breakfast

8:00 a.m.-10:00 a.m.  Plenary Session 6: Tumor Microenvironment and Inflammation
Ras oncogene in cancer pathogenesis and therapy
Dafna Bar-Sagi, New York University Langone Medical Center, New York, NY
Role of sphingosine-1-phosphate axis in the tumor microenvironment and development of a novel therapy for obesity-related triple-negative breast cancer
Sarah Spiegel, Virginia Commonwealth University, Richmond, VA
The two faces of mesenchymal stem cells in myeloid neoplasias
Simon Mendez-Ferrer, University of Cambridge, Cambridge, United Kingdom
(2) Short talks from Proffered Abstracts

10:00 a.m.-10:30 a.m.  Coffee Break

*For program updates, please visit www.AACR.org/MeetingCalendar and follow the link for Frontiers in Basic Cancer Research.
10:30 a.m.-11:15 a.m.  Special Lecture: Converging Concepts and Emerging Research: Genetics and New Technologies in Cancer Research
Genomic analyses of cancer in tissue and liquid biopsies
Victor E. Velculescu, Johns Hopkins Kimmel Comprehensive Cancer Center, Baltimore, MD

11:15 a.m.-1:15 p.m.  Plenary Session 7: New Technologies in Cancer Research
High dimensional approaches for identifying and characterizing tumor-specific T cells
Evan Newell, AStar, Singapore
Long-term single cell quantification: New tools for old questions
Timothy Schroeder, ETH Zurich, Basel, Switzerland
Retooling CRISPR to turn genes on and off
Luke Gilbert, University of California, San Francisco, CA
(2) Short talks from Proffered Abstracts

1:15 p.m.-2:45 p.m.  Mentoring Lunches for Early-Career Investigators (advance sign up required)
Lunch on Own for All Other Attendees

2:45 p.m.-4:45 p.m.  Plenary Session 8: Mechanisms of Resistance
Preclinical strategies to target resistance in colorectal cancer: Opportunities and challenges
Livio Trusolino, University of Torino Medical School, Torino, Italy
Developing covalent inhibitors to interrogate kinase targets in cancer
Nathaneal Gray, Dana-Farber Cancer Institute, Boston, MA
Mechanisms of resistance to targeted therapies in myeloid malignancies
Neil P. Shah, UCSF School of Medicine, San Francisco, CA
Mechanisms of resistance to EGFR inhibitors in lung cancer
Pasi A. Jänne, Dana-Farber Cancer Institute, Boston, MA

4:45 p.m.-7:30 p.m.  Poster Session B and Reception

Monday, October 26, 2015

7:00 a.m.-8:00 a.m.  Continental Breakfast

8:00 a.m.-10:00 a.m.  Plenary Session 9: Drug Development and New Therapeutic Modalities
Optimizing kinase inhibitors to treat cancer
Gideon Bollag, Plexxikon Inc., Berkeley, CA
Targeting developmental pathways in cancer
Frederic J. de Sauvage, Genentech, Inc., South San Francisco, CA
Clinical proof of concept for the first-in-class BCL-2-selective inhibitor venetoclax (ABT-199/GDC-0199)
Joel Leverson, Abbott Laboratories, Abbott Park, IL
Discovery of porcupine inhibitors targeting Wnt signaling in cancer
Shifeng Pan, Genomics Institute of the Novartis Research Foundation, San Diego, CA

10:00 a.m.-10:30 a.m.  Coffee Break

10:30 a.m.-11:15 a.m.  Closing Keynote
Signatures of mutational processes
Michael R. Stratton, Wellcome Trust Sanger Institute, Cambridge, United Kingdom

Departure

*For program updates, please visit www.AACR.org/MeetingCalendar and follow the link for Frontiers in Basic Cancer Research.
### Registration Process

Individuals wishing to attend the conference must register either online at [www.AACR.org/MeetingsCalendar](http://www.AACR.org/MeetingsCalendar) (follow the link to the Frontiers in Basic Cancer Research conference) or by returning, by mail or fax, the registration form found on the conference registration webpage. Places at the conference are on a first-come, first-served basis, according to date of registration. **The Advance Registration Rates are available until Friday, September 11, 2015.**

Registration forms will not be processed without full payment. Copies of checks, government, or other payment orders cannot be accepted. All fees must be in U.S. currency, drawn on a U.S. bank. Visa, MasterCard, and American Express are also accepted for payment.

### Registration Rates

Attendee registration includes admission to all lecture sessions, poster sessions, conference continental breakfasts on October 23, 24, 25, and 26, refreshment breaks, and refreshments during the poster sessions on October 24 and 25. All fees are listed in U.S. dollars (USD).

AACR members must include their member ID number on the registration form or log into their member account when registering online to obtain the member rates (member dues must be paid through 2015 prior to registering). Online registrations will be confirmed by email immediately. All other registrations will be confirmed by email approximately three weeks after receipt. Receipts can also be obtained online at [www.myAACR.org](http://www.myAACR.org).

¹Students registering onsite must show a valid student ID.

²Nonmember pre-/postdoctoral students must have their registrar, dean, or department head certify that they are enrolled at the university and working toward a degree or fellowship in a field related to cancer research.

³If you are a Patient Advocate registering for this conference, you must send a biography and pamphlet of your organization to the AACR Survivor and Patient Advocacy Department at advocacy@aacr.org for verification.

⁴The spouse/guest fee is only for meals and social activities listed above. It does NOT admit individuals to lecture sessions.

Space permitting, onsite registration will be available at the Pennsylvania Convention Center, October 23-26, 2015. All registrations are for the full conference.
Mentoring Roundtable Breakfasts and Lunches

There will be opportunities at breakfast on the mornings of October 24, 25, and 26 and lunch on October 23, 24, and 25 where early-career investigators and students can sign up to meet with conference speakers and other experts. If you would like more information, please visit www.AACR.org/MeetingCalendar and follow the link for the Frontiers in Basic Cancer Research conference. Places are limited and available on a first-come, first-served basis. The opportunity to sign up ahead of time will be sent via email prior to the conference, but attendees may also sign up for remaining spaces onsite at the Registration Desk.

Refund Policy

Requests for refunds must be made in writing and received by the AACR Meetings Department by September 25, 2015. There will be a $75 processing fee for cancellations by September 25, 2015. After September 25, 2015, no refunds can be given. Refund requests may be sent by fax to 215-351-9165 or by email to meetings@aacr.org.

Accommodations

The conference will be held at the Pennsylvania Convention Center and the Philadelphia Marriott Downtown in Philadelphia, PA. The Philadelphia Marriott Downtown commands a distinctive presence with its towering profile in the heart of Philadelphia; the hotel’s downtown location surrounds guests with rich revolutionary history and culture reflective of the city’s 18th century service as the nation’s capital.

A reduced conference rate of $229 per night is available to conference attendees until Tuesday, September 29, 2015. Reservations may be made online by following the “Accommodations and Travel” page on www.AACR.org/MeetingsCalendar (follow the link to the Frontiers in Basic Cancer Research conference) or by calling 877-212-5752 and requesting the AACR 2015 Frontiers in Basic Cancer Research conference rate. The hotel will accept reservations at the reduced conference rate on a space-available basis until the cut-off date. Reservations made after this date will be accepted on a first-come, first-served basis at the nearest available rate. Applied to the room charge will be state and local taxes, currently 15.5%. Reservations must be guaranteed with a major credit card at the time of reservation. A deposit equal to one night’s stay will be charged to the credit card at the time the reservation is made. Cancellations will be accepted at no charge until three days in advance of arrival. Note that check-in time is 4:00 p.m., and check-out time is 12:00 p.m.

Travel to Philadelphia, PA

The closest major airport to the conference site is the Philadelphia International Airport (PHL), located approximately 20 minutes from the hotel. The AACR has named Gant Travel Management as its official travel coordinator for this conference. Gant will provide custom itineraries with the lowest applicable airfares and best journey time.

Fly on United Airlines, the official airline of this conference, and save with special discounts exclusive to attendees and guests. United offers various levels of discounts:

- Save 7% on United’s lowest applicable fares when you book and ticket 30 days or more in advance. Discounts apply on United, United Express, and United codeshare flights operated by US Airways and Air Canada. Applicable restrictions apply.
- Special United Airlines Area Fares are set air fare prices based upon geographical locations. Two-day minimum stay and seven-day advance purchase required. Applicable restrictions apply.

To receive the exclusive discounts, please contact Gant:

- Toll-free: 877-924-2298
- Outside of the U.S. and Canada: 630-227-3818
- Email: aacr@ganttravel.com

Gant is open from 7:30 a.m. to 6:00 p.m. U.S. Central Time, Monday through Friday. A minimal service fee per airline ticket issued will be applied. You may also call United Airlines directly at 800-521-4041 and reference ZT2D366688. Book early and take advantage of promotional fares that will give you the greatest discount. Full mileage credit will be earned by frequent flyer club members.

Ground Transportation

Taxi service is readily available between the airport and the Philadelphia Marriott Downtown. Taxi service is approximately $40 one-way, plus gratuity. The AACR has arranged for a car rental discount through Hertz. Call Hertz at 800-654-2240 from the U.S. or 800-263-0600 from Canada, or you may book online. Please refer to the discount CV#02ST0019.
Amtrak offers a 10% discount off the best available rail fare to Philadelphia, PA between October 20, 2015 and October 29, 2015. To book your reservation, call Amtrak at 800-872-7245 or contact your local travel agent. Please be sure to refer to Convention Fare Code X07Y-930 when making your reservation. This offer is not valid on the Auto Train and Acela Service. Fare is valid on Amtrak Regional for all departures seven days a week, except for holiday blackouts. Offer valid with Sleepers, Business Class, or First Class seats with payment of the full applicable accommodation charges.

Abstract Submission

Individuals interested in submitting an abstract for presentation during the conference must do so through the AACR online abstract submission service (http://myAACR.aacr.org). Abstract submissions will only be accepted electronically through the abstract submission service; paper abstracts will not be accepted. Each participant will be given the opportunity to present up to two posters of his or her work. It is expected that the abstract will include original data not previously published in a peer-reviewed journal or the proceedings of a national meeting. Only those abstracts that have been reviewed and selected by the Conference Chairpersons may be presented as posters. The AACR does not proofread for or correct spelling, typographical, grammatical, or scientific errors, nor can changes be made once the abstract is submitted. If you have any questions or experience any problems, please contact AACR Abstract Support at 215-440-9300 or abstract@aacr.org. Complete abstract submission details may be found by following the link for the Frontiers in Basic Cancer Research conference at www.AACR.org/MeetingCalendar. The abstract submission deadline is Friday, August 14, 2015.

Oral Presentations of Highly Rated Abstracts

Just over ten authors of highly rated abstracts will be invited to present short oral presentations of their work that will be integrated into plenary sessions. All abstracts will be considered.

Financial Support for Attendance

A variety of award programs are available to offset a portion of the registration, travel, and subsistence expenses incurred in attending this conference. For more information on financial support and application deadlines, please visit www.AACR.org/MeetingCalendar and follow the link for the Frontiers in Basic Cancer Research conference and “Financial Support” for more information.

Scholar-in-Training Awards

All graduate and medical students, postdoctoral and clinical fellows, and physicians-in-training who have submitted an abstract and a letter of recommendation to sita@aacr.org, with the conference title in the email subject may be considered. Applicants must be AACR members in good standing. To apply for one of the awards you must submit both your abstract and letter of recommendation by Friday, August 14, 2015.
Women in Cancer Research (WICR) Scholar Awards

AACR-WICR members in good standing who are graduate and medical students, residents, and postdoctoral and clinical fellows are eligible to apply for the Women in Cancer Research Scholar Awards, which provide funding to offset a portion of the registration, travel, and subsistence expenses incurred in attending this conference. The award application deadline is Tuesday, August 4. Additional information and application instructions are available on the conference website.

AACR Minority-Serving Institution (MSI) Faculty Scholar in Cancer Research Awards

The AACR offers awards in cancer research for participation in its meetings and conferences to full-time faculty of Minority-Serving Institutions who are scientists at the Assistant Professor level or above. This program is supported by a generous grant from the Center to Reduce Cancer Health Disparities of the National Cancer Institute. The purposes of the awards are to increase the scientific knowledge base of faculty members at MSIs, to encourage them in their research, and to assist in inspiring their students to pursue careers in cancer research. For more information about this award program, please visit the AACR-Minorities in Cancer Research section of the AACR website.

AACR Minority Scholar in Cancer Research Awards

The AACR is pleased to administer this important award program that is supported by a generous grant from the Center to Reduce Cancer Health Disparities of the National Cancer Institute (NCI) and provides funds for the participation of meritorious minority scientists in AACR meetings and conferences. Eligible scientists are full-time predoctoral (graduate or medical) students or residents, clinical or postdoctoral fellows, and junior faculty who are either engaged in cancer research or who have the training and potential to make contributions to this field. This program applies only to racial/ethnic minority groups that have been identified by the NCI as being traditionally underrepresented in cancer and biomedical research. These groups are African American/Black, Alaska Native, Hispanic American, Native American, and Native Pacific Islander. Only citizens of the United States or Canada or scientists who are permanent residents of these countries may receive one of these awards. For more information about this award program, please visit the AACR-Minorities in Cancer Research section of the AACR website.

AACR Membership

AACR membership is available to individuals who are interested in joining the AACR and registering for this conference at the discounted member rates. AACR Membership offers an array of benefits some of which include: reduced subscription rates to AACR’s eight scientific journals; abstract sponsorship privileges for AACR Annual Meetings; networking and scientific exchange with leading researchers; and more. The AACR is also eager to support the exchange of knowledge and research with investigators who are located in countries with emerging economies. Significantly reduced membership dues are available for these investigators.

Individuals interested in joining the AACR and registering at the advance registration rate must submit an application at least two weeks prior to the conference. If upon review of the membership application, a candidate is deemed ineligible for the membership category to which he or she applied, then the candidate will need to register at the nonmember rate. Candidates interested in membership can apply online at http://myAACR.aacr.org or download the Membership Application Form from the AACR website at www.AACR.org. Contact the AACR Membership Department at 215-440-9300 with any questions.

Support Opportunities

Support and generous recognition opportunities are available for this conference. Benefits include table top exhibits, complimentary registrations, networking opportunities, and more. The AACR welcomes support from corporations, foundations, and other organizations that are interested in helping to defray a portion of the cost of presenting this important international conference. For further information, please contact Iain Mitchell of the AACR Foundation at 215-440-9300, ext. 388, or Iain.Mitchell@aacr.org.

Assistance for Physically Challenged Registrants

The AACR’s conferences are accessible to all investigators. Registrants with special requirements for transportation, hotel accommodations, or other facilities connected with the conference should inform the AACR by checking the appropriate box on the registration form or by contacting the AACR Meetings and Exhibits Department at 215-440-9300 or at meetings@aacr.org.
# Fourth AACR International Conference on
FRONTIERS IN BASIC CANCER RESEARCH
October 23-26, 2015 • Pennsylvania Convention Center • Philadelphia, PA

## Name and Address Information
- ACR Membership # ____________  
- Nonmember
- Dr.
- Mr.
- Ms.
- Last/Family Name
- First Name/Middle Initial
- Degree (check all that apply):  
  - PhD  
  - MD  
  - PharmD  
  - DSc  
  - Other (specify) ____________

**Title/Position**
- Department/Division
- Institution
- Street/Building or Post Office Box
- City/State or Province
- Zip or Postal Code/Country
- Telephone
- Fax
- Email
- Spouse/Guest’s name, if registering
- Emergency Contact Name
- Phone
- New address. Please change my AACR mailing information.
- If you will require special accommodations, please specify:

## Scientific Research Focus:
- Basic  
- Translational  
- Clinical
- Population Science  
- Behavioral Science

**Primary Area of Research** (check only one):
- Behavioral Science  
- Biochemistry and Biophysics  
- Biostatistics  
- Carcinogenesis  
- Cellular Biology  
- Chemistry  
- Clinical Investigations/Clinical Trials  
- Computational Biology  
- Endocrinology  
- Epidemiology  
- Other

**Institution Type** (check only one):
- Academia  
- Association/Professional Organization  
- Cancer Center (NCI-designated)  
- Foundation/Advocacy Organization  
- Government  
- Hospital/Medical Center/Clinic  
- Industry/Private Sector  
- Nonprofit Research Institute  
- Other  
- Other Cancer Center

**Race or Ethnic Background** (check only one):
- Caucasian  
- African American or Black  
- Hispanic or Latino  
- Asian
- Native American  
- Alaskan Native  
- Native Hawaiian or Pacific Islander  
- Other

**Gender:**  
- Male  
- Female

Information concerning gender and ethnic background is solicited to enable the association to ensure that its programs are appropriately serving all members of the cancer research community.
