Syncing Your Online Itinerary to Your Mobile App Itinerary

You can use the AACR 2015 Program Guide App to search and browse for sessions and presentations and select results to create a personal itinerary on your mobile device. However, if you prefer, you can also create an itinerary using the AACR Annual Meeting Online Itinerary Planner and then sync that itinerary to your App itinerary. To create an online itinerary and sync it to your App itinerary, proceed as follows:

1. **Access the AACR Annual Meeting Online Itinerary Planner.** Use the Advanced Search or Browse features to explore the Annual Meeting program and click the “Add to My Itinerary” button to select sessions or presentations of interest. When you add a search/browse result to your itinerary for the first time, you will be prompted to log in to your itinerary. Enter your login and password; if you have not yet created an itinerary login, click the “Click here to create a new itinerary account” link below the sign-in box.

2. **Download**, install, and open the Annual Meeting Program Guide App. From the Now screen, touch the “Build Your Schedule” button. A new page will open. Touch the gear icon in the top right corner and then touch the “Log in” button to move to the Login page. Alternatively, you can touch the “Login Setting” button at the bottom of each screen.

3. Enter the login and password that you created in the Online Itinerary Planner, check “I accept” to agree to the Service Agreement and Privacy Policy, and touch “Submit.” Your online itinerary will be loaded into the Build Your Schedule tab of the App.
