A01  **Mechanisms of breast cancer risk in shift workers: epigenetic changes in the circadian pathway.**  Shan Zienolddiny.

A02  **Comparative analysis of breast density among Black, White and Hispanic women presenting for screening mammography.**  Bridget A Oppong, Chiranjeev Dash, Suzanne Oneill, Kepher Makambi, Tesha Coleman, Lucile L Adams-Campbell.

A03  **Novel polyisoprenylated small molecules as potential new therapies for triple negative breast cancer.**  Olufisayo O Salako, Augustine T Nkembo, Elizabeth Ntantie, Nazarius S Lamango.

A05  **Androgen receptor expression and breast cancer survival in the Nurses’ Health Study cohorts.**  Kevin H Kensler, Elizabeth M Poole, Laura C Collins, Andrew H Beck, Bernard A Rosner, A. Heather Eliassen, Susan E Hankinson, Myles Brown, Rulla M Tamimi.

A06  **Investigation into the differences in anoikis responses of tumourigenic and non-tumourigenic breast cell lines after exposure to a novel 2-methoxyestradiol derivative.**  Zohreh Riahi, Iman van den Bout, Annie Joubert.

A07  **Hyperthermia plus Radiotherapy in Triple-negative breast cancer; before or after?**  zahra joveini, zhaleh behrouzkia, reza zohdi aghdam.

A08  **Hyperthermia plus Radiotherapy in Estrogen receptor positive (ER+) breast cancer; before or after?  zahra joveini, zhaleh behrouzkia, reza zohdi aghdam.**
A09  Role of adipocytokines in obesity associated Triple Negative Breast Cancer.  Rizwana Sultana, Amal Ch Katakai, Bibhuti Bhusan Barthakur, Sujoy Bose.

A11  A deep learning approach for extracting clinically relevant information from pathology reports.  Waheeda Banu Saib, Pavan Kumar, Geoffrey Siwo, Gciniwe Dlamini, Elvira Singh, Sue Candy, Michael Klipin.

A13  Regulation of alternative splicing and gene expression in KSRP silenced triple negative breast cancer cell lines.  Raquel Duarte.

A16  A content analysis of online news media reporting on the human papillomavirus vaccination program in South Africa.  Vedantha Singh, Sharon Attipoe-Dorcoo, Jennifer R Moodley.

A19  Dietary-fiber and fecal fiber contents including pH in rural Africans with colorectal cancer.  Mohammed Faruk, Sani Ibrahim, Ahmed Adamu, Abdulmumini Hassan Rafindadi,

A21  Inhibition of Sonic Hedgehog Pathway by small molecule inhibitors: targeting colon cancer stem cells.  Aadilah Omar, Clement Penny, Paul Ruff.

A28  Induction of viral mimicry by 5-aza-cytidine in patients may be enforced by addition of vitamin C in physiological doses.  Kirsten Grønbæk, Hitoshi Ohtani, Andreas Oerskov, Minmin Liu, Jakob Werner Hansen, Sunil Saini, Steve Baylin, Gangning Liang, Sine Reker.
Hadrup, Peter A Jones.

A35 Regulation of antitumor T-cell immunity by the E-cadherin receptors CD103 integrin and KLRG1. Stéphanie Corgnac, Fathia MAMI-CHOUAIB.

A36 The cytolytic and anti-leukemic potential of ex vivo differentiated NK cells is confined in the CD94 positive population. salem chouaib, nadine saleh khalifé, Meriem hasmim, yanyan Zhang, manale Doldur, jean Henri Bouhris, Fawzia Louache.
