

**W. Ralph Vogler, M.D.
Emeritus Member
AACR Member Since 1963**

I have enjoyed a long relationship with AACR. I presented my first paper at the Annual Meeting in April 1964. Through my collaboration with other members, we made contributions to basic and clinical research. Our results were presented at AACR meetings and published by AACR. Personally, I was privileged to know Barney Clarkson, Tom Frei, Trudy Elion, George Hitchings, and many others. Membership has been a rewarding experience.
