

The American Association for Cancer Research (AACR)  
cordially invites you to a briefing entitled:

## “Electronic Cigarettes: What You Don’t Know Can Hurt You”

Thursday, May 14, 2015 | 12:00 p.m.-1:00 p.m.  
U.S. Capitol | Room H-137

The American Association for Cancer Research (AACR) will hold a briefing to discuss the complex regulatory issues and public health concerns surrounding electronic nicotine delivery systems (ENDS), also called e-cigarettes. Speakers will address the need for more research to ensure evidence-based policy decisions are made regarding the use, sale, and marketing of electronic cigarettes. This briefing will educate the audience on the various types of electronic cigarettes, what we know, and what we still need to know to protect public health. The speakers will also highlight a joint Policy Statement released in January by the AACR and the American Society of Clinical Oncology (ASCO) titled, Electronic Nicotine Delivery Systems: A Policy Statement from the American Association for Cancer Research and the American Society of Clinical Oncology.

### Welcome

The Honorable Jackie Speier, United States Representative, 14th District, State of California

The Honorable Richard Blumenthal, United States Senator, State of Connecticut

### Featured Speakers

Roy S. Herbst, MD, PhD, Chief of Medical Oncology, Yale Comprehensive Cancer Center, New Haven, CT

Maciej Goniewicz, PhD, PharmD, Assistant Professor of Oncology, Department of Health Behavior, Roswell Park Cancer Institute, Buffalo, NY

Brian King, PhD, MPH, Deputy Director for Research Translation (acting), Office on Smoking and Health, CDC, Atlanta, GA

To RSVP for this event, please email:
