

# STUPID CANCER PROGRAMS

*Stupid Cancer's mission is to empower adolescents and young adults affected by cancer by ending isolation and building community.*

## CancerCon®

Stupid Cancer's annual conference brings together hundreds of patients, survivors, caregivers, and professionals for a weekend of breakout sessions, keynote speakers, and social activities.

## Meetups

Social gatherings hosted by volunteers in local communities. For those who can't attend a local Meetup, every Monday evening there's a **Digital Meetup**. Connect via online video chat with other young adults...no matter where you are.

## Webinars

Interactive, educational sessions on topics important to the young adult cancer community, hosted live by experts each month and available to watch anytime on the website.

## Summits

One day events hosted in partnership with cancer centers and hospitals across the country to provide education and build community among their AYA patients.

## Stories

AYAs can share their experiences and connect with peers through the power of storytelling at intimate storytelling events or online via our YouTube channel or [blog.stupidcancer.org](http://blog.stupidcancer.org).

## Social

350k+ followers stay up-to-date with the Stupid Cancer community and events on social media [@stupidcancer](https://twitter.com/stupidcancer).
