

AACR-Women in Cancer Research WICR Members Spotlight

The WICR Member Spotlight focuses attention on the recent awards, promotions, degree completions, and appointments of AACR-Women in Cancer Research members.

The mission of WICR is to achieve full participation of women in cancer research by recognizing their scientific achievements and fostering their career development and advancement in cancer research through all stages of their careers. Sending your accolades to us for the WICR Member Spotlight will increase the visibility and recognition of the outstanding contributions female scientists are regularly making to the field of cancer research. To nominate yourself or a colleague, please complete this form and forward it to wicr@aacr.org.
