COVID-19 GUIDELINES AND REQUIREMENTS (not including the AACR Annual Meeting)

The health and safety of AACR meeting registrants, as well as the patients and communities they serve, are the AACR’s highest priorities. Please click here for guidelines and policies specific to the AACR Annual Meeting 2022.

Masks
All registrants, AACR staff, and vendors will be required to wear masks in the meeting spaces.

Masks should:
- Completely cover your mouth and nose.
- Fit snugly without gaps.

Onsite Safety Measures
- All meeting rooms will be set to allow for more physical distancing.
- The hotel and AV staff will clean all meeting rooms between sessions, including chairs, tables, podiums, and microphones.
- Hand sanitizing stations will be available throughout the hotel.
- As much as possible, food and beverage will be individually packaged for serving.

Vaccination Requirement and Negative COVID-19 Test Requirement
Every registrant will be required to show proof of both COVID-19 vaccination and a negative COVID-19 test at the conference registration desk before being allowed to pick up their meeting badge.

A list of currently accepted COVID-19 vaccines can be found on the U.S. Center for Disease Control website.

In addition to providing proof of vaccination, all attendees will be required to provide proof of a negative result of a COVID-19 viral test taken no more than 48 hours before arrival at the conference. Acceptable tests include an antigen test such as a rapid antigen test or a nucleic acid amplification test, such as RT-PCR.

Definition of Fully Vaccinated
You must receive your final dose two (2) weeks prior to the start of the meeting. A final dose is currently defined as one of the following:

- A second shot in a two-dose series of any vaccine approved by the CDC or the WHO, such as the Pfizer or Moderna vaccines;
- One shot of a single-dose any vaccine approved by the CDC or the WHO, such as the Johnson & Johnson Janssen vaccine.

This definition may change based on updated CDC guidelines.
Registrants will be required to validate their vaccination.

- **US Registrants** – Please use the [CLEAR APP](https://clearapp.org) to validate your vaccination. 
  *Instructions for using the vaccination verification app are available on the Clear website.*

- **International Registrants** – Please provide valid proof of vaccination and photo ID at the conference registration desk upon arrival. Valid proof of vaccination includes vaccination card or photo/digital copy of proof of vaccination.
