PROGRAM GUIDELINES

PROGRAM SUMMARY

The Lustgarten Foundation-AACR Career Development Award for Pancreatic Cancer Research, in Honor of Ruth Bader Ginsburg, has been established to honor the life and legacy of Justice Ginsburg, who worked tirelessly to advance gender equality, even while battling pancreatic cancer. The intent of this program is to support the development and diversity of talent working in pancreatic cancer research.

This Award represents a joint effort to support the **career advancement of a female scientist** engaged in pancreatic cancer research relevant to the goals and mission of the Lustgarten Foundation. The proposed project may be basic, translational, clinical, or population sciences related research and must have direct applicability and relevance to the understanding, detection, diagnosis, or treatment of pancreatic cancer. Applications are invited from researchers currently in the field as well as investigators with experience in other areas of cancer or biomedical research who have promising ideas and approaches that can be applied to pancreatic cancer research.

The grant provides \$300,000 over three years for expenses related to the research project, which may include salary and benefits of the grant recipient, any collaborators, postdoctoral or clinical research fellows, graduate students (including tuition costs associated with graduate students' education and training), or research assistants; research/laboratory supplies; equipment; publication charges for manuscripts that pertain directly to the funded project; and other research expenses. Indirect costs are **not** allowable expenses.

LETTER OF INTENT DEADLINE

October 16, 2023, at **1:00 p.m.** U.S. Eastern Time

APPLICANTS NOTIFIED OF DECISION STATUS OF LETTER OF INTENT

November 2023

FULL APPLICATION DEADLINE *(for those invited to apply based on the Letter of Intent)*

January 08, 2024, at **1:00 p.m.** U.S. Eastern Time

ANNUAL GRANTEE RECOGNITION EVENT

Grant recipients must attend the Annual Grantee Recognition Event 2024 to formally accept their grant. Grant funds may be used to support the grantee's attendance at this Event.

In the event of unforeseen scheduling changes, the grantees will be contacted regarding alternative arrangements.

START OF GRANT TERM

July 1, 2024

APPLICANT ELIGIBILITY CRITERIA

Applicants must be **female investigators** with a doctoral degree (PhD, MD, MD/PhD, or equivalent) in a related field and not currently be a candidate for a further doctoral degree.

At the start of the grant term on July 1, 2024, applicants must:

- Hold a faculty appointment at the rank of assistant professor. Appointments such as research assistant professor, adjunct assistant professor, assistant professor research track, visiting professor, or instructor **are** eligible. Applicants that have progressed to associate professor appointments are not eligible.
 - If eligibility is based on a future position, the applicant must contact the AACR's SRGA at grants@aacr.org before submitting their application for information on additional verification materials/signatures that may be required.
- Have independent laboratory space and ability to hold independent funding as confirmed by their institution.
- Work at an academic, medical, or research institution anywhere in the world.
 - There are no citizenship or geographic requirements. However, by submitting a letter of intent for this grant, an applicant applying from an institution located in a country in which they are not a citizen, or a permanent resident assures that the visa status will provide sufficient time to complete the project and grant term at the institution from which they applied.

Applicants must be AACR **Active** members. Nonmembers interested in this grant opportunity must submit a satisfactory application for AACR Active membership by the application deadline. **Nonmembers** can apply for membership [online](#). **Members** can renew their membership through [myAACR](#) to bring their membership current. You will need your logon (email address) and password to access the member portal. If you require assistance logging in, please submit a [help form](#). **Lapsed** members must be members in good standing by the application deadline and should contact the Membership Department at membership@aacr.org for assistance.

Investigators may submit only **one** letter of Intent for the Lustgarten Foundation-AACR Career Development Award for Pancreatic Cancer Research, in Honor of Ruth Bader Ginsburg, but may concurrently apply for other AACR grants. However, applicants are expected to accept the first grant they are awarded.

Current AACR Grantees may apply if their current grant ends before the start of the grant term of this funding opportunity, i.e., July 1, 2024, and must be up to date with all reporting requirements to be considered eligible. Please contact the AACR's SRGA for confirmation before submitting an application.

Investigators who are currently, or have been, a Principal Investigator on a substantial independent research award (e.g., an NIH R01 award, DP2 award, DP5 award, MIRA award, or the equivalent) are **not** eligible. Qualified investigators are invited to apply for AACR grants for independent investigators.

Employees or subcontractors of a U.S. government entity or for-profit private industry are not eligible. Employees or subcontractors of a U.S. government entity or for-profit private industry may serve as Collaborators, but no grant funds may be directed towards these individuals.

Postdoctoral or clinical research fellows or the equivalent who are working under the auspices of a scientific mentor are not eligible to apply. Qualified fellows are invited to apply for an AACR Fellowship.

All applicants with questions about eligibility should contact the AACR's SRGA at grants@aacr.org before submitting an application.

RESEARCH PROJECT CRITERIA

Proposed projects may be basic, translational, clinical, or population sciences related research and must have direct applicability and relevance to the understanding, detection, diagnosis, or treatment of pancreatic cancer and be aligned with the goals and priorities of the [Lustgarten Foundation](#).

COMPETITIVE LETTER OF INTENT DESCRIPTION

An AACR Competitive Letter of Intent, also referred to as Letter of Intent, is an application tool designed to identify the projects with the greatest scientific potential and alignment with the Program Guidelines without requiring applicants to first submit a full application. A Letter of Intent is not written as *correspondence* to the Scientific Review Committee, but instead follows a prescribed template which gathers information summarizing the proposed research project. Letters of Intent have also been called "pre-applications," "concept papers," or "letters of inquiry" by other funders.

Letters of Intent are peer-reviewed by the Scientific Review Committee. A limited number of applicants whose Letters of Intent are deemed most meritorious will be invited by the committee to submit full applications.

The Letter of Intent for the Lustgarten Foundation-AACR Career Development Award for Pancreatic Cancer Research, in Honor of Ruth Bader Ginsburg is limited to two pages and must provide a clear, concise, and comprehensive overview of the proposed work. Relevant references must be attached and are limited to two pages.

The Letter of Intent must be accompanied by:

- Lay and Scientific Abstracts (limited to 3,000 characters including spaces), which should provide a clear, concise, and comprehensive overview of the proposed research project.
- Applicant's Biographical Sketch
- Applicant Checklist

EVALUATION OF COMPETITIVE LETTERS OF INTENT AND INVITED APPLICATIONS

The Scientific Review Committee that will peer-review the Letters of Intent and invited full applications is comprised of senior researchers and physician-scientists respected for their own accomplishments in pancreatic cancer research and viewed as leaders in the field.

The Committee will consider the following criteria when reviewing Letters of Intent and invited full applications:

- **Investigator.** What training and experience does the applicant have to ensure successful implementation of the proposed project? Does the applicant have demonstrated capacity to carry out independent research? Is there evidence that the applicant is developing a successful track record in cancer research or that they could make a career commitment to this field?
- **Significance.** Is the scientific and technical merit of the proposed project of significance? Is the proposed project of high quality, and what potential does it have to advance this field and eventually benefit patients?
- **Approach.** Are the overall strategy, design, and methodology well-reasoned and appropriate to accomplish the specific aims of the project within the grant term? Are potential problems, alternative strategies and benchmarks for success presented? Is there an appropriate statistical analysis plan in place to rigorously assess the impact of the data? Is the budget justified and reasonable in relation to the proposed project? *(The budget-related question will be used to evaluate only the invited full applications for this opportunity.)*
- **Institutional Environment.** What evidence is provided of institutional commitment for the scientific development of the applicant? What support, equipment, and resources will be available to the applicant and are they adequate to successfully complete the proposed project? *(This criterion will be used to evaluate only the invited full applications for this opportunity.)*

The Committee will consider each year's applicants independently, without regard to the topics covered in previously funded proposals or to the institutions of the previous grantees.

TOBACCO INDUSTRY FUNDING AND CONFLICTS OF INTEREST STATEMENT

Scientific investigators or health professionals who are funded by the tobacco industry for any research project are not eligible for any AACR grant. Grantees who accept funding from the tobacco industry for any research project during the term of an AACR grant must inform the AACR of such funding, whereupon the AACR grant will immediately be terminated.

Tobacco industry funding is defined for purposes of AACR grant applicants and recipients as money provided or used for all or any of the costs of any research project, including personnel, consumables, equipment, buildings, travel, meetings and conferences, and operating costs for laboratories and offices.

It is not defined as money provided or used for meetings or conferences that don't relate to any particular research projects.

Tobacco industry funding includes: funds from a company that is engaged in or has affiliates engaged in the manufacture of tobacco produced for human use; funds in the name of a tobacco brand, whether or

not the brand name is used solely for tobacco products; funds from a body set up by the tobacco industry or by one or more companies engaged in the manufacture of tobacco products.

The following do not constitute tobacco industry funding for the purposes of this policy:

- Legacies from tobacco industry investments (unless the names of a tobacco company or cigarette brand are associated with them)
- Funding from a trust or foundation established with assets related to the tobacco industry but no longer having any connection with the tobacco industry even though it may bear a name that (for historical reasons) is associated with the tobacco industry.

LETTER OF INTENT INSTRUCTIONS

LETTER OF INTENT PROCEDURES

The AACR requires applicants to complete an online Letter of Intent submission by **1:00 p.m.** U.S. Eastern Time on **October 16, 2023**, using the ProposalCentral website at <https://proposalcentral.com>.

In order to submit a complete Letter of Intent, applicants need to enter information directly into the online submission platform as well as upload a number of documents. The following instructions provide details about information that needs to be entered and the materials that need to be uploaded. The section numbering corresponds to the Letter of Intent Instructions and the online ProposalCentral Letter of Intent submission platform.

Information to be Entered Directly into ProposalCentral	Letter of Intent Instructions Section	ProposalCentral Section
Project Title and Acknowledgement of Reading the Terms of Conditions	1. Title Page	1) Title Page
Applicant Information	4. Applicant	4) Applicant
Institution and Contact Information	5. Institution & Contacts	5) Institution & Contacts
Lay Abstract Scientific Abstract	6. A. Lay Abstract 6. B. Scientific Abstract	6) Abstract 6) Abstract

Templates	Letter of Intent Instructions Section	ProposalCentral Section
Letter of Intent Template	7.A. Letter of Intent Documents	7) Letter of Intent Documents

Additional Materials	Letter of Intent Instructions Section	ProposalCentral Section
Applicant's Biographical Sketch	7.B. Letter of Intent Documents	7) Letter of Intent Documents
Applicant Checklist	7.C. Letter of Intent Documents	7) Letter of Intent Documents

Required E-Signatures	Letter of Intent Instructions Section	ProposalCentral Section
Application Signature Page(s)	9) Letter of Intent Documents	9) Signature Page(s)

GETTING STARTED IN ProposalCentral

If you are a new user of ProposalCentral, click the "CREATE AN ACCOUNT NOW" button and complete the registration process. After logging in, complete your Professional Profile (green tab) before starting an application.

If you are already registered with ProposalCentral, access the site and log in with your Username and Password. If you have forgotten your login information, click on the "Forgot Your Password?" link.

To start a Letter of Intent, select the “Grant Opportunities” tab (gray tab). A list of grant opportunities will be displayed. The list of applications can be filtered for just this organization by clicking “Filter by Grant Maker” at the top and selecting “American Association for Cancer Research” in the drop-down menu. Find the “**Lustgarten Foundation-AACR Career Development Award for Pancreatic Cancer Research, in Honor of Ruth Bader Ginsburg**” and click the blue “Apply Now” button in the “Apply” column.

If you have any difficulties registering, logging in, or creating your Letter of Intent, contact ProposalCentral Customer Support at: 800-875-2562 (Toll-free U.S. and Canada), +1-703-964-5840 (Direct Dial International), or by email at pcsupport@altum.com. See the ProposalCentral [FAQ](#), for additional information.

LETTER OF INTENT FORMAT

The following information is required to submit a complete Letter of Intent. Numbers correspond to the sections found on the left side of the ProposalCentral website.

- 1. TITLE PAGE.** Enter the title of the research project. The title is limited to no more than 75 characters (including spaces). Do not use abbreviations. A project title must be entered and saved before additional sections may be accessed.

Terms and Conditions of the Grant. In order to ensure that the applicant is informed of the terms and conditions of the grant should they be selected as a recipient, applicant must acknowledge that they have read the Terms and Conditions and have shared them with their institution by typing in their name and date in the box provided.

The terms and conditions of this grant may be modified or amended by the AACR prior to execution of the Grant Agreement. In addition, the grant recipient’s institution may only request revisions to sections VII.F.; XII.; XIII.F.; and XIV.A. of the Grant Agreement prior to execution. Only in special circumstances will revisions be considered to sections other than those noted above.

- 2. DOWNLOAD TEMPLATES & INSTRUCTIONS.** The Program Guidelines and Competitive Letter of Intent Instructions document, Terms and Conditions, Applicant Checklist, and the Letter of Intent template, can be downloaded from this page. Applicants are required to use the Letter of Intent template.

See Section 7 of the Letter of Intent Instructions for how to complete and upload the template. This Letter of Intent also requires an additional attachment for which a template is not provided (Applicant’s Biographical Sketch).

- 3. ENABLE OTHER USERS TO ACCESS THIS PROPOSAL.** Optional.
- 4. APPLICANT.** Enter information for the applicant. Applicants must include their contact information, including e-mail address, phone number, mailing address, and AACR membership information.

Applicants are strongly encouraged to have an ORCID iD and include this identifier with their application.

- 5. INSTITUTION & CONTACTS.** Enter information regarding the applicant’s institution and signing official. The Signing Official designated in this section will receive an email with login instructions to provide their e-signature outlined in Section 9.

NOTE: For those invited to submit a full application, the application process will require a Letter of Reference from a nominator and endorser (if necessary). A nominator must be the applicant’s department chair, division head, or dean. If the nominator is not an active, emeritus, or honorary member of the AACR, information for an endorser who is an active, emeritus, or honorary member of the AACR must also be provided.

6. ABSTRACTS.

- A. Lay Abstract.** Limited to 3,000 characters (including spaces), which provides a clear, concise, and comprehensive overview of the proposed research project in language suitable for a non-scientific audience. Do not use abbreviations unless absolutely necessary.
- B. Scientific Abstract.** The abstract is limited to 3,000 characters (including spaces) and must provide a brief summary of the proposed project.

If funded, these abstracts will become public information; therefore, do not include proprietary or confidential information.

7. LETTER OF INTENT DOCUMENTS.

Formatting Instructions. Applicants must adhere to the following instructions in completing the templates. Failure to observe type size specifications and page limits will result in the return of the Letter of Intent without review.

- Type size. Must use 12-point Times New Roman for the text, and no smaller than 9-point type for figures, legends, and tables.
- Single-spaced text. Single-spacing is acceptable, and space between paragraphs is recommended.
- Margins. The page margins must be no less than 0.75 inches on each side.
- Page numbering. The Narrative must be numbered consecutively; do not use section designations such as “3A” or “3B”.
- Tips and techniques for inserting images in documents.
 - Reduce the file size of documents with images by “inserting” the image (as opposed to “cutting” and “pasting”). Save graphical images as JPG or GIF files. Insert the image into the document by selecting “Insert – Picture – From File” from the MS Word menu.
 - Insert only GIF or JPG graphic files as images in your Word document. Other graphical file formats are either very large or difficult to manipulate in the document.
 - Do not insert Quick Time or TIFF objects into your document.
 - Anchor the images that you embed in your document.
 - Once you have anchored the inserted image, you can format text to wrap around the image.

- Do not edit your images in Word. Use a graphics program.
- Do not embed your images in tables, text boxes, and other form elements.
- Do not add annotations over the images in Word. Add annotations to the images in a graphics program.

When a template is provided, the template MUST be used. Prepare and upload the following documents into your application in portable document format (PDF):

A. Letter of Intent. *Applicants are required to use the Letter of Intent template available from the ProposalCentral website. The information must be presented in this order:*

I. Letter of Intent Narrative. Limited to two pages, including figures and tables. The References section does not count against this page limit. Enter project title in the header. The information must be presented in this order and include these subheadings: (A) Specific Aims; (B) Rationale, Preliminary Data, Methodology, and Approach; (C) Statistical Plan; and (D) Significance and Statement of Relevance.

II. References. Limited to two pages. AACR reference style follows that of the [Uniform Requirements for Manuscripts Submitted to Biomedical Journals](#). Note that the *Uniform Requirements* specify that, for articles with more than six authors, the names of the first six authors must be listed, followed by “et al”. For articles with six or fewer authors, all authors must be listed.

B. Applicant's Biographical Sketch. Applicants are required to use the [Non-fellowship Biosketch](#) template available to download from the [NIH's Biosketch Format Pages, Instructions and Samples](#). Please refer to the Instructions and Non-fellowship biosketch sample under **Biographical Sketch Format Page (non-fellowship)**. The biographical sketch must be in English.

Note: For those invited to submit a full application, collaborators are allowable. However, co-Principal Investigators are **NOT** permitted. You will have the opportunity to provide Letter(s) of Collaboration and the Biosketch(es) of these collaborators at the full application stage.

C. Applicant Checklist. To ensure each applicant's eligibility, the checklist is required for all applicants. The checklist **MUST** be downloaded from the ProposalCentral site, completed, and signed by all required parties. Electronic/digital signatures are permitted. These signatures transmitted by electronic means shall have the same force and effect as original signatures. Please note that if eligibility is based on a future position, the position must be confirmed at the time of application and CANNOT be contingent upon receiving this grant.

The signed Applicant Checklist must be uploaded to your online Letter of Intent in the Letter of Intent Documents section.

Uploading the attachments into your submission. Once you have converted your attachments to PDF files, the next step is to upload the files to your online Letter of Intent. *Only PDF attachments are permitted for this Letter of Intent submission.*

- Open your online Letter of Intent and go to the section for attaching files. Click the blue “Attach Files” button.
- Select the appropriate type of attachment from the drop-down list.
- Enter your own description of the file in the “Describe Attachment” field.
- Click on the “click here to browse” link to select the file from your computer or drag and drop. Click on the “Upload and Continue” button. You will get a confirmation message on your screen that the file was uploaded successfully. You will also see that your file is now listed in the “Current list of uploaded attachments” section of the screen. Clicking the “Back” or “Upload and Return” button allows you to go back to the main page of this section where the uploaded documents should now be listed. Click the download icon next to the file name to open and view your uploaded documents. To delete the file, click on the trashcan icon to the right under the “Delete” column.

In the section for attachments, all the required attachments are listed in the middle of the screen, just below where you upload your files. This list of required attachments helps you track completion and uploading of your required attachments. Once you upload a required attachment, that attachment type will be removed from the required list and will be displayed in the “Current list of uploaded attachments”.

If you wish to modify the attached file, make the revisions to your **original** file on your computer, convert the file to PDF, and use the same process above to attach the new file. **Delete any previously submitted versions of the file before submitting your Letter of Intent.**

SUBMITTING COMPLETE LETTER OF INTENT

- 8. PI DATA SHEET.** Please verify the applicant gender, race, and ethnicity. This is automatically populated based on the applicant’s Professional Profile within ProposalCentral. Changes to the selections on this screen will be reflected in your Professional Profile. The information is handled separately from the application and will not be provided to the Scientific Review Committee.
- 9. SIGNATURE PAGE(S).** Use the “Print Signature Pages” button to download the Signature Pages. Signatures are only required on the first page. This page can be printed, original signatures obtained, and then uploaded to your online application. Electronic/digital signatures are also permitted and shall have the same force and effect as original signatures. Do not upload the Application Contacts, Scientific Abstract, and Budget pages with the signed Signature Page.

NOTE: Data entered in the online Letter of Intent submission are automatically included in the Signature Pages. The following signature page fields will remain blank until the full application process: Dates of Proposed Project, Proposed Budget, Human Subjects, Vertebrate Animals, Recombinant DNA, and Biohazards. If information is missing in the Signature Pages, it could be because you have not entered the information in one of the online sections **OR** the information is not required for this grant program. If the institution’s Employer Identification Number (EIN) is not completed on the Signature Page, please request your institution to provide that information in their ProposalCentral profile.

While the “Print Signature Pages” option allows applicants to download the Signature Page, Application Contacts, Scientific Abstract, and Budget, the AACR **strongly encourages** applicants to also use the “Print Signature Pages with Attachments” option. This option can be used if your institution wishes to review the full application but also should be used by the applicant that your attachments were loaded properly. The following application materials will **not** be present when using this option: Applicant Checklist, Pending Other Support, Letter(s) of Reference, and the Signature Page containing the required signatures. Absence of these materials should **not** be considered an error. If your institution requires all components of the application to review, the above documents need to be printed individually by the applicant and added; however, as the Letter(s) of Reference are uploaded directly from the nominator and endorser (if necessary), the applicant will be unable to access these letters.

Excessive spacing in your Scientific Abstract (e.g., line breaks between paragraphs) can cause the abstract to not fully appear in the Signature Page view, even if under the 3,000 character limit. You may want to further edit your Scientific Abstract prior to submission if it does not fully appear. In addition, errors may occur when the uploaded PDF files are assembled by the system. Please check to ensure that all pages of every document included appear in the “Print Signature Pages with Attachments” option. If you are having any issues with this option, please contact ProposalCentral customer support at: 800-875-2562 (Toll-free U.S. and Canada), +1-703-964-5840 (Direct Dial International), or by e-mail to pcsupport@altum.com.

- 10. VALIDATE.** Validate the application on ProposalCentral. This is an essential step. An application that has not been validated cannot be submitted. “Validate” checks for required data and attachments. You will not be able to submit if all the required data and attachments have not been provided.
- 11. SUBMIT.** After successfully passing the validate check, click the “Submit” button. An e-mail will be sent to you confirming your submission.

Once your application is submitted you may view it by selecting “Submitted” from the “Proposal Status” drop-down menu under the ‘Proposals’ tab, then clicking the “View” button under the Edit column. The status column will show “Submitted” and the date submitted. You may need to refresh your browser screen after submitting the application to see the updated status.

CHANGES TO YOUR LETTER OF INTENT

Withdrawal of Letter of Intent. Please advise the AACR promptly, in writing, should you decide to withdraw your letter of intent for any reason. Your correspondence should include your name, the grant opportunity to which you applied, the project title, and the reason for withdrawal.

Change of Address. Notify the AACR in writing of any changes of address, e-mail, or phone number, following the submission of a letter of intent. Include your name and the ProposalCentral identification number. The e-mail address provided with your application will be used for all official communication about your submission including the recipient selection results. Your Professional Profile in ProposalCentral must be kept up to date.

Change of Institution or Position. If you change your institution or professional position, contact the AACR to determine whether your letter of intent is still eligible for review.

INQUIRIES

Inquiries or technical issues regarding ProposalCentral and the online application process should be directed to customer support at: 800-875-2562 (Toll-free U.S. and Canada), +1-703-964-5840 (Direct Dial International), or by e-mail to pcsupport@altum.com.

Inquiries about the program guidelines, eligibility requirements, and application materials can be directed to the AACR's Scientific Review and Grants Administration at grants@aacr.org.

MORE ABOUT THE PARTNERS

Since the Lustgarten Foundation was established in 1998, they have been committed to changing outcomes so patients have a better chance for long-term survival. From basic science to the clinic, our funded researchers are investigating ways to detect the disease earlier, personalize treatment and develop better therapies. The intent of this program is to support the development and diversification of talent working in pancreatic cancer research. This program will support early-career, faculty-level researchers to pursue projects of high relevance to the mission of the Lustgarten Foundation in one of the categories below. Visit www.lustgarten.org to learn more.

Founded in 1907, the American Association for Cancer Research (AACR) is the world's first and largest professional organization dedicated to advancing cancer research and its mission to prevent and cure all cancers. The AACR has more than 54,000 members in 130 countries and territories around the world; over 32% percent of members live outside the United States. Twenty-two percent of AACR's international members are located in countries with emerging economies. The AACR offers seven categories of membership to support each aspect of our members' professional development and enhancement in cancer research. In support of the professional development of early-career investigators, no annual dues are required for Associate membership. The AACR marshals the full spectrum of expertise of the cancer community to accelerate progress in the biology, detection, diagnosis, treatment, and prevention of cancer by annually convening more than 30 conferences and educational workshops, the largest of which is the AACR Annual Meeting with more than 22,500 attendees. The AACR's Virtual 2020 Annual Meeting attracted over 74,000 attendees. In addition, the AACR publishes ten prestigious, peer-reviewed scientific journals and a magazine for cancer survivors, patients, and their caregivers. The AACR funds meritorious research directly as well as in cooperation with numerous cancer organizations. As the Scientific Partner of Stand Up To Cancer, the AACR provides expert peer review, grants administration, and scientific oversight of team science and individual investigator grants in cancer research that have the potential for near-term patient benefit. The AACR actively communicates with legislators and other policymakers about the value of cancer research and the cancer-related sciences in saving lives from cancer. For more information about the AACR, visit www.AACR.org.
