Countries in the 2025 Eligible Country list are selected by the AACR based upon levels of official development assistance (OECD), income classifications (World Bank), and achievement in social and economic dimensions (UNDP). Last updated July, 2024.

The AACR is obligated to comply with U.S. laws and regulations regarding research and related transactions in countries subject to U.S. Government enforcement of economic and trade sanctions for foreign policy and national security reasons. Applicants who are citizens, permanent residents or are currently residing in a U.S. Government sanctioned country may be subject to restrictions for this award program. Please contact globaltravelawards@aacr.org for further consideration.
