Founded in 1907, the American Association for Cancer Research® (AACR) is the world's first and largest professional organization dedicated to advancing cancer research and its mission to prevent and cure cancer. AACR membership includes more than 61,000 laboratory, translational, and clinical researchers; population scientists; other health care professionals; and patient advocates residing in 143 countries and territories around the world. Presently, 34% of members live outside the United States and 20% of AACR's international members are located in countries building cancer research capacity. The AACR marshals the full spectrum of expertise of the cancer community to accelerate progress in the prevention, diagnosis, and treatment of cancer by annually convening more than 30 conferences and educational workshops, the largest of which is the AACR Annual Meeting. The AACR publishes 10 prestigious, peer-reviewed scientific journals. Other AACR publications include *Cancer Today*, a magazine for cancer patients and caregivers; the *AACR Cancer Progress Report*; *AACR Cancer Disparities Progress Report*; *AACR Pediatric Cancer Progress Report*; *AACR Annual Impact Report*; *Leading Discoveries*, the AACR's awareness and donor magazine; and the blog, *Cancer Research Catalyst*. In addition, the AACR funds meritorious research directly as well as in cooperation with numerous cancer organizations. As the Scientific Partner of Stand Up To Cancer, the AACR provides expert peer review, grants administration, and scientific oversight of team science and individual investigator grants in cancer research that have the potential for near-term patient benefit. The AACR actively communicates with legislators and other policymakers about the value of cancer research and related biomedical science in saving lives from cancer. CONVENTION, DISPLAY, AND TRADE SHOW LABOR REGULATIONS

Capital Convention Contractors, the AACR General Services Contractor, and qualified display contractors (Exhibitor Appointed Contractors) at the Facility will use unionized labor to install and dismantle displays and decorations.

Convention Display

Exhibitors and their agents must comply with all federal and local fire and building codes that apply to places of public assembly. Fire-fighting and emergency equipment may not be hidden or obstructed, including fire extinguishers, strobes, fire hose cabinets, Public Emergency Reporting System (PERS) stations and standpipes. Booth construction shall not block access to any fire/life safety equipment and shall not impede exit access, exit doors or aisle. All drapes, curtains, table coverings, skirts, carpet or any materials used in exhibits must be flame-retardant to meet with the city's Fire Department requirements and have flameproof certificate or tag. Certificates or tags must be prominently attached to the material used so they may be easily seen by the facility Fire Marshal. Exhibit contents or products and decorations provided by the official service contractor under the same guidelines, but may have detached flameproof certificates or tags. Additional information will be supplied in the Exhibitor Service Manual.

Contract Obligations and Liability

The exhibitor agrees to protect, save, and keep the AACR, and the occupied Facility forever harmless from any damage or charges imposed for violation of any law or ordinance by the exhibitor, his employees or agents as well as to strictly comply with the applicable terms and conditions contained in the agreement between the AACR and the occupied Facility regarding the exhibition premises; and further, exhibitor shall at all times protect, indemnify, save, and keep harmless the AACR, and the occupied convention center against and from any and all loss, cost, damage, liability, or expense which arises out of or from or by reason of any act or omission by the exhibitor, his employees, or agents.

Fire Protection

All materials used in the exhibit area must be flameproof and fire resistant in order to conform to local fire ordinances and in accordance with regulations established by the National Association of Fire Underwriters. Crepe paper, corrugated paper, flameproof or otherwise, will not be permitted. Display racks, signs, spotlights and special equipment must be approved before use, and all displays are subject to inspection by the Fire Prevention Bureau. Any exhibits or parts thereof that are found not to be fireproof may be ordered dismantled. All aisles and exhibits must be kept clear at all times, and fire stations and fire extinguisher equipment are not to be covered or obstructed.

Labor Regulations and Set Up of Exhibits

The unpacking, assembling, dismantling, and packing of displays and equipment may be done by full-time employees of an exhibiting company. Exhibitors are allowed to set up and/or dismantle their own booths, provided that they use their own bona fide, full-time employees. It is acceptable for exhibitors to safely use power tools to set up and/or dismantle their own booths.

No one under the age of 18 is permitted on the loading docks, in truck bays, or in the loading dockyard. Additionally, no one under the age of 18 is permitted in the exhibit hall during move-in or move-out operations. The Licensee will determine age restrictions, if any, for hours when the exhibit hall is open for attendees.

Hand-Carry Policy

The Facility reserves the right to restrict all freight and package deliveries to the loading dock.

For the convenience and safety of exhibitors and patrons, all freight and material handling must enter and exit the facility through the loading dock. The Licensee and its exhibitors will be allowed to hand carry one item, one time, in or out of the facility without having to access the loading dock. (Hand carried freight is defined as one item that can be easily carried by an individual without the need for dollies or other mechanized equipment.)

No parking is allowed at the entrance of the facility; and the use of passenger elevators for movement of freight is not allowed. All packages are subject to inspection by facility personnel.

Hand-carried Freight: Move in or move out through the lobbies is strictly limited to hand-carried items. Wheels of any kind (dollies, flatbeds, or anything mechanical) are prohibited. Material that requires the use of wheeled or mechanical equipment must be delivered to the exhibit floor through the loading docks.

Freight Deliveries: The facility cannot accept any freight or materials (including overnight freight services) prior to the contracted move-in date. The Official Service Contractor or freight carrier must deliver all freight, and all shipments delivered to our facilities during move in must be sent to the attention of CAPITAL convention contractors.

Public Safety Recommendations

The Facility is not liable for, nor does the Facility carry any insurance on, Exhibitor property or fixtures. Please bear in mind that all of your exhibit material and displays are your property. Therefore, it is important that you take every precaution to protect this material. Below are some suggestions toward this end:

- Ship your materials with a qualified carrier and be sure to lock trunks/crates
- If cartons are used, be sure that they are securely taped or banded and under no circumstances marked with the name or type of articles contained therein
- Be sure to furnish your shipping company with an accurate account and complete bill of lading
- Do not leave your booth unattended during the set-up period
- Do not leave exhibit material under tables or displays
- Do not include exhibit material in containers to be stored with empties
- At the close of the exhibit, be sure to pack as quickly as possible and under no circumstances leave your space unattended during this period
- If at all possible, have one of your staff remain in your space with your shipment, until it is actually picked up by the drayage contractor's personnel
- Promptly report any missing items or suspicious person(s) to Public Safety

Exclusive Services

The Facility and its contracted entities are the exclusive providers of the following services: food and beverage, cleaning, electrical, medical, business center, telephone, internet, rigging, the operation of ground-supported crank-ups, the operation and provision of lifts for theatrical purposes, plumbing, the use of the house sound system, and the supply of compressed airs and gases. Electricity, water, drain, air, telephone, audiovisual equipment, and floral will be available for rental by exhibitors. Order forms will be included in the Exhibitor Service Manual.

Exhibitor-Appointed Contractors

Exhibitors who plan to use the services of an EAC firm for supervision other than the designated contractors must abide by the following:

1. The exhibitor shall notify AACR in writing by June 18, 2026 with the names of the EAC firm, address, telephone number, and contact persons.
2. The EAC firm must furnish to the AACR no later than June 18, 2026 with a copy of an insurance certificate in the amount of \$2 million liability to include property damage. The Certificate must indicate full coverage for installation days, show days, and dismantling days.
3. Upon arrival at the exposition site, EAC firms must check in with Official Service Contractor to receive work/ labor badges that will allow them access to the show floor.
4. EAC firms may not solicit business on the exhibit floor at any time.
5. EAC firms must follow all of the move-in and move-out rules in a timely and professional manner and must supervise work within the AACR established deadlines.
6. EAC firms must cooperate with the “official” designated contractors especially by not interfering with the sufficient use of an Official Service Contractor’s workers.

Force Labor

All exhibit materials must be unpacked and displays completed by 4:00 p.m. on Wednesday, July 22, 2026 to permit the removal of empty crates and cartons from the exhibit floor. This will help expedite the time required for the cleaning of the exhibit hall. Any exhibitor not unpacked and set up by this time will be ordered to be set up by the AACR – all costs incurred will be at the exhibitor’s expense.

Booth Cleaning

Booth cleaning services are available. An order form for the custom cleaning of tile, carpet, and booths will be included in the Exhibitor Service Manual. It is the responsibility of the exhibitor to make arrangements for booth cleaning.

Audio-Visual

If you need to rent audio-visual equipment (monitors etc.) for your exhibit booth, please use the show-appointed audio-visual vendor for your show. The rental price will be comparable to an outside company but the labor cost will be significantly lower if you use the appointed vendor. When an outside company comes into the building, they are required to use union labor at a four-hour minimum. The show-appointed AV vendor will be able to utilize labor in multiple booths, allowing you to be billed per hour rather than the four-hour minimum rate. When a non-appointed vendor comes into the facility, they are able to work in your booth only and must include the four-hour rate in your billing. These rules apply to the set up and dismantling of booths.

Electrical

Exhibitors cannot run cords under carpet. In addition, exhibitors can run cords over carpet as long as they are concealed and do not impose a trip hazard, i.e. side curtains or under tables with skirts. Only Underwriters Laboratories (UL) approved clamp-on types of portable spotlights are allowed. All display lights must be turned off when the exhibitor leaves for the day. Only UL-approved extension cords 12-gauge or greater rated for 20 amps are allowed. Note: Household extension cords are not permitted. These are generally 14- or 16-gauge and only rated at 15 amps.
